# Funeral Package Price List

As an independent, family run funeral director, we are proud to offer a number of direct cremation options, recognising that there is more to it for many families than simply cost implications. We offer 4 funeral package options ranging from a simple, unattended direct cremation to a basic funeral. Below gives a brief explanation of each package.

## Direct Cremation

The direct cremation package is an unattended cremation. The time, date and location of the cremation is chosen by the funeral director with no mourners in attendance and no ceremony. Our direct cremations take place at Oak Hill Crematorium, Hatfield. The cremated remains will either be scattered at the crematorium or can be collected directly from the crematorium. We will inform you once the cremation has taken place so that you can contact the crematorium to collect the ashes if you so wish. The ashes will be ready for collection from 72 hours after the date of cremation. The cremation will normally take place within 14 days of bringing the deceased into our care.

## Virtual Direct Cremation

The virtual direct cremation includes all elements of the direct cremation plus a professionally edited visual tribute video. The video includes entry music, a visual tribute of up to 25 photos with personalised details, a poem (chosen from a curated selection of 10), footage of the coffin being brought into the chapel and drone footage of Oak Hill Crematorium. The cremation normally will take place within 14 days of bringing the deceased into our care.

## Attended Direct Cremation

The attended direct cremation includes all the elements of the direct cremation plus the option of a 20 minute service in the chapel at Oak Hill Crematorium. The service will take place on a date and time to suit the funeral director and the family but must be within 14 days of bringing the deceased into our care. The service will take place at 9.00 or 9.30 at Oak Hill Crematorium.

## Basic Funeral (available for both burial or cremation – standardised price list)

The basic funeral package is a low-cost funeral with limited services but includes all of the essential elements of a funeral service. The package includes:

- The hearse, conductor and 4 members of staff to travel directly to the funeral venue
- A simple wooden veneered coffin
- A full service in the crematorium or cemetery chapel (where one is available at a cemetery, alternatively, the service can take place at the graveside). The funeral can take place at any crematorium or cemetery within a 20 mile radius of our premises.
- Conveyance of the deceased to our private chapels of rest within a 15 mile radius (there is no additional fee for a removal out of normal working hours, which is not included in the other cremation packages)
- Visits to our chapel of rest within working hours. Your loved one will be dressed in a white gown provided by us.

The cremation/burial fee or any other third party fees are not included in the basic funeral package as the cost may vary depending on the family's choice of crematorium/cemetery. Our staff can advise you on the costs of these services.

The funeral is at a time and date to suit the funeral director, but in conjunction with the family. The funeral service must take place within 21 days of the deceased being brought into our care and must take place at a service time of 10.30am or earlier.

As part of these low-cost packages, we are unable to upgrade our services any further than listed in the table overleaf. If you would prefer a more bespoke funeral service, we can discuss our bespoke funeral pricing with you.

The table below outlines what is offered in each package. Some elements of the direct cremation, virtual direct cremation and attended direct cremation package can be upgraded. Costs for upgrades are shown in the second table.

	Direct Cremation	Virtual direct cremation	Attended direct cremation	Basic funeral*
